

ST HELENS GREENS MAINTENANCE TENDER

APPENDIX 1

GRASS CUTTING

SCHEDULE

The Contractor shall cut the grass as per cutting schedule per annum. (schedule of dates to be arranged).

Care and skill expected of professional grass cutters to a standard suitable for the sports activities in the appropriate areas with and without damaging the existing surface.

The grass should be cut up to the hedge, kerb, pavement or boundary (whichever is relevant) and around the obstructions such as, but not limited to, benches.

Strimmers should be used where the mower cannot reach and care must be taken not to damage any of the trees or boundary structures whilst strimming or using any other cutting device.

Where indicated a hand mower should be used to ensure a high standard, even cut.

The costs of any damages incurred will be expected to be covered by the Contractor.

All grass cuttings and litter shall be removed and disposed of at no additional cost to the client.

In wet conditions where operations involving grass cutting pose a risk to the surfaces of the locations, these operations shall not take place until conditions allow.

Cutting Schedule below - please see attached images for location identification.
